

H2 Cloud

All the power of Panorama H2
in SaaS mode

Panorama's Historian now available in the Cloud!

With H2 Cloud, you get a ready-to-use tool, straight out-of-the-box. Have secure access to all the functions of an advanced Data Historian through a simple web browser. You will be able to perform your own analyses in a simple and intuitive way, and share these in a few clicks.

By opting for H2 Cloud, you benefit from all the power of a proven and dedicated data analytics tool. No more waiting... gone are the recurring constraints of servers, administration tasks and software updates to schedule. What's more, Codra stands side by side with you and guarantees a 99.9% availability rate!
